Professional Summary

Full-Stack Software Developer with nearly 5 years of experience in designing, developing, and maintaining web applications and scalable backend systems. Strong expertise in PHP, Laravel, CodeIgniter, React.js, Node.js, REST API development, database management, and AWS cloud services. Experienced in building authentication systems, integrating third-party services, developing serverless applications, and delivering end-to-end software solutions. Familiar with Docker, CI/CD pipelines, and modern development practices.

Skills

Programming: PHP, JavaScript, Node.js, Python (Basic)

Frontend: HTML, React.js, CSS, jQuery, Bootstrap

Backend: Laravel, CodeIgniter, NestJS, Django

Databases: MySQL, PostgreSQL, MongoDB

AWS: S3, Lambda, Step Functions, DynamoDB, API Gateway, Route 53, CloudFront, EC2, Lightsail, RDS, IAM, Cognito, Secrets Manager, CloudWatch

APIs & services: REST APIs, third-party integrations

DevOps & CI/CD: Docker, Jenkins, GitHub Actions, Bitbucket Pipelines

Tools: Git, Bitbucket, Postman, VS Code, Sublime

Work Experience

Software Developer

Techera Business Software Solutions Pvt Ltd | Indore

Dec 2024 - Present

- Develop and maintain scalable applications using PHP, Laravel, Node.js, NestJS, React.js, and JavaScript.
- Build REST APIs, backend services, business logic, authentication systems, and third-party integrations.
- Create responsive, reusable frontend components using React.js, HTML, CSS, Bootstrap, and JavaScript.
- Design and optimize database schemas and queries across MySQL, PostgreSQL, and MongoDB.
- Deploy and manage AWS infrastructure, including EC2, S3, Lambda, API Gateway, DynamoDB, RDS, CloudFront, and Route 53.

Laravel Developer

Dream Cyber Infoway | Indore

Jul 2023 - Dec 2024

- Manage the software lifecycle from requirements and technical planning through development, deployment, and maintenance.
- Develop scalable web applications with PHP, Laravel, and MVC architecture.
- Build REST APIs, backend services, authentication, and third-party integrations.
- Design database structures, migrations, relationships, and optimized queries for MySQL and PostgreSQL.
- Implement role-based access control, permissions, middleware, and secure authentication.

Web Developer

P&P Infotech Applying Solutions | Indore

Dec 2021 - May 2023

- Develop web applications using PHP, Laravel, CodeIgniter, and MVC architecture.
- Build backend functionality, business logic, and reusable application components.
- Create REST APIs for frontend applications and third-party integrations.
- Work with MySQL queries, relationships, joins, and CRUD operations.
- Develop dynamic interfaces using HTML, CSS, JavaScript, jQuery, and Bootstrap.

Major Projects

Boomsite
React.js | PHP

- Single-source content platform for broadcast radio, podcasters, internet radio, and independent creators.
- Brings industry-curated prep content, fresh audio, news, and stories together for creators.

boomsite.fm

AI Boomsite
React.js | PHP | AWS

- AI-powered news workflow that sources U.S. news, classifies content, and uses ChatGPT for rewriting.
- Serverless processing and storage workflow using AWS S3, DynamoDB, and Lambda.

ai.boomsite.fm

Liendraw
Django

- Construction lien-management platform for documents, project details, and compliance workflows.
- Role-based collaboration and streamlined document approvals for contractors, homeowners, and admins.

admin.liendraw.com

Xamplifier
Laravel | MongoDB | MySQL

- Developed and maintained Laravel-based modules, including user profiles, settings, and administrative dashboards.
- Designed and implemented RESTful APIs for frontend application integration.
- Implemented cookie-based Single Sign-On (SSO) across multiple products.
- Worked with MongoDB and MySQL for database management and application functionality.

xamplifier.com

Phantom Producer
Web & mobile platform

- Radio production platform for creating custom promos and sweepers with station voice tracks, music, and branding.
- Supports production on mobile and desktop, with automatic syncing between devices.

phantomproducer.com

Your Weekend
Local events platform

- Collects local events across communities to help residents plan what to do over the weekend.
- Features a concise weekly guide and audio roundup to help people find worthwhile events without endless scrolling.
